INTRODUCING PREMIUM WORLD OF

P A R A S O L S

---

*A well-designed parasol transforms an outdoor area into a functional, welcoming space throughout the year. By providing shade, shelter, and comfort, it extends the usability of terraces, courtyards, and poolside areas, creating new opportunities for dining and relaxation. When integrated with lighting and heating systems, our parasols allow venues to maximise seating capacity and revenue by maintaining ambience and comfort in every season. Combining architectural form with technical precision, Sancrea parasols are designed to enhance both atmosphere and efficiency in hospitality environments.*

# THE COLLECTION

---

## CENTRE POST

Timeless and versatile, centre post parasols are the foundation of outdoor shading. Designed for stability and simplicity, they integrate seamlessly into dining and lounge areas. Available in multiple sizes, finishes, and materials, each model offers durability, easy operation, and elegant proportion. Ideal for cafés, restaurants, and poolside spaces.

## CANTILEVER

Cantilever parasols offer complete flexibility and unobstructed space beneath the canopy. The offset structure allows for effortless coverage of large seating areas without the interruption of a central pole. With 360° rotation, integrated lighting, and heating options, these models combine technical innovation with refined aesthetics for modern hospitality environments.

## JUMBRELLA

Engineered for large-scale coverage, Jumbrella models deliver architectural presence and reliable performance. Perfect for hotels, terraces, and event spaces, they combine heavy-duty construction with optional lighting, heating, and side enclosures. Designed to withstand demanding conditions while maintaining visual elegance, they redefine comfort for expansive outdoor areas.

HOSPITALITY EXPRESSED  
THROUGH FORM.

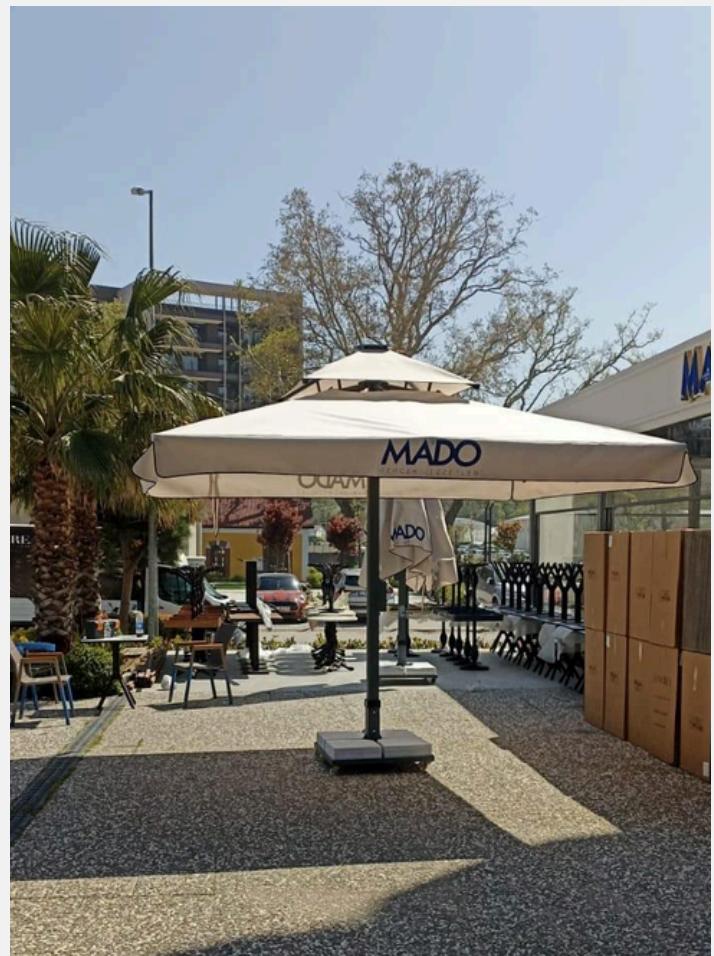

# CENTRE POST

Sancrea centre post parasols are built for performance and timeless design. Each model is engineered to provide reliable shade and lasting durability in commercial settings. Available in multiple dimensions and canopy shapes, they can be adapted to suit any terrace or dining layout. Precision-made aluminium and stainless steel components ensure strength, while a range of fabric and finish options allows full visual coordination with surrounding architecture.

# CANTILEVER

Sancrea cantilever parasols combine elegant design with advanced functionality. The side-mounted structure provides open, unobstructed space beneath the canopy, making them ideal for flexible outdoor layouts. Each model features smooth rotation and tilt mechanisms, engineered for stability and ease of use. Optional integrated lighting and heating extend comfort into the evening, allowing hospitality spaces to remain welcoming and operational in every season.

# JUMBRELLA

---

*ENGINEERED FOR GRAND SPACES,  
DESIGNED TO ENDURE.*

For spaces that demand scale and presence, our Jumbrellas deliver architectural shade solutions built to perform. Designed for expansive rooftops, terraces, courtyards, and farmhouses, these parasols combine technical precision with striking proportion. Each model can be tailored in size, colour, and configuration, with options for integrated lighting, heating, and wind breakers. Wherever large outdoor areas become part of the experience, Jumbrella creates comfort with impact.

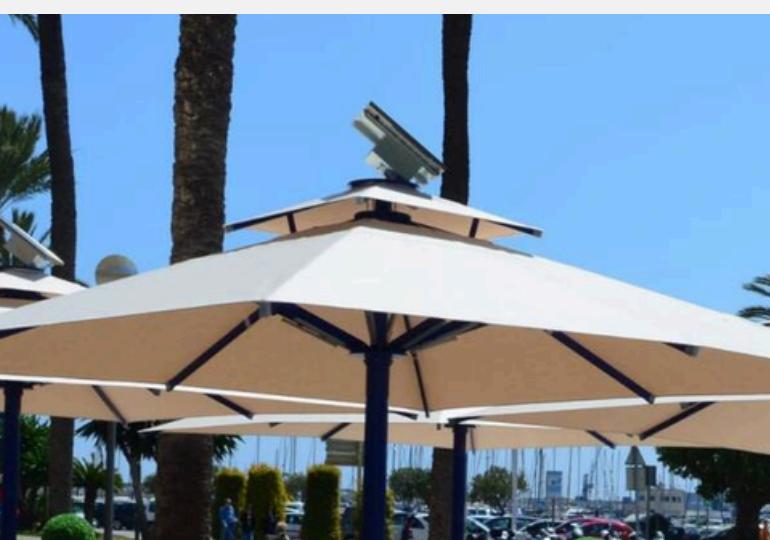

# EXTRAS & MORE

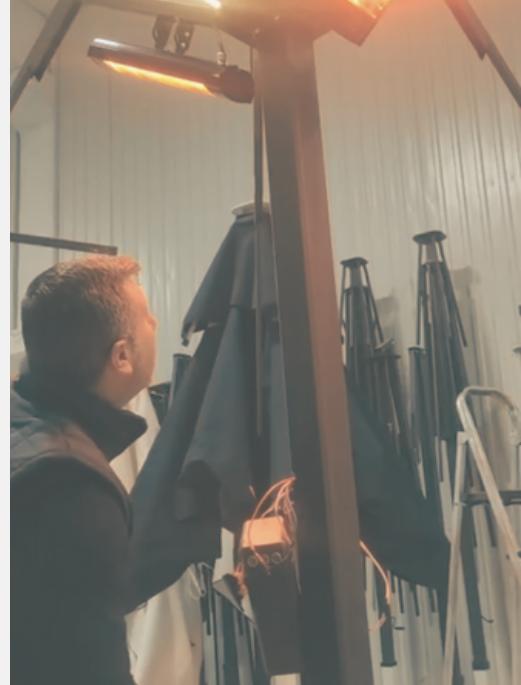

Enhance every parasol with a range of premium accessories and technical options designed for all-day and all-season use.

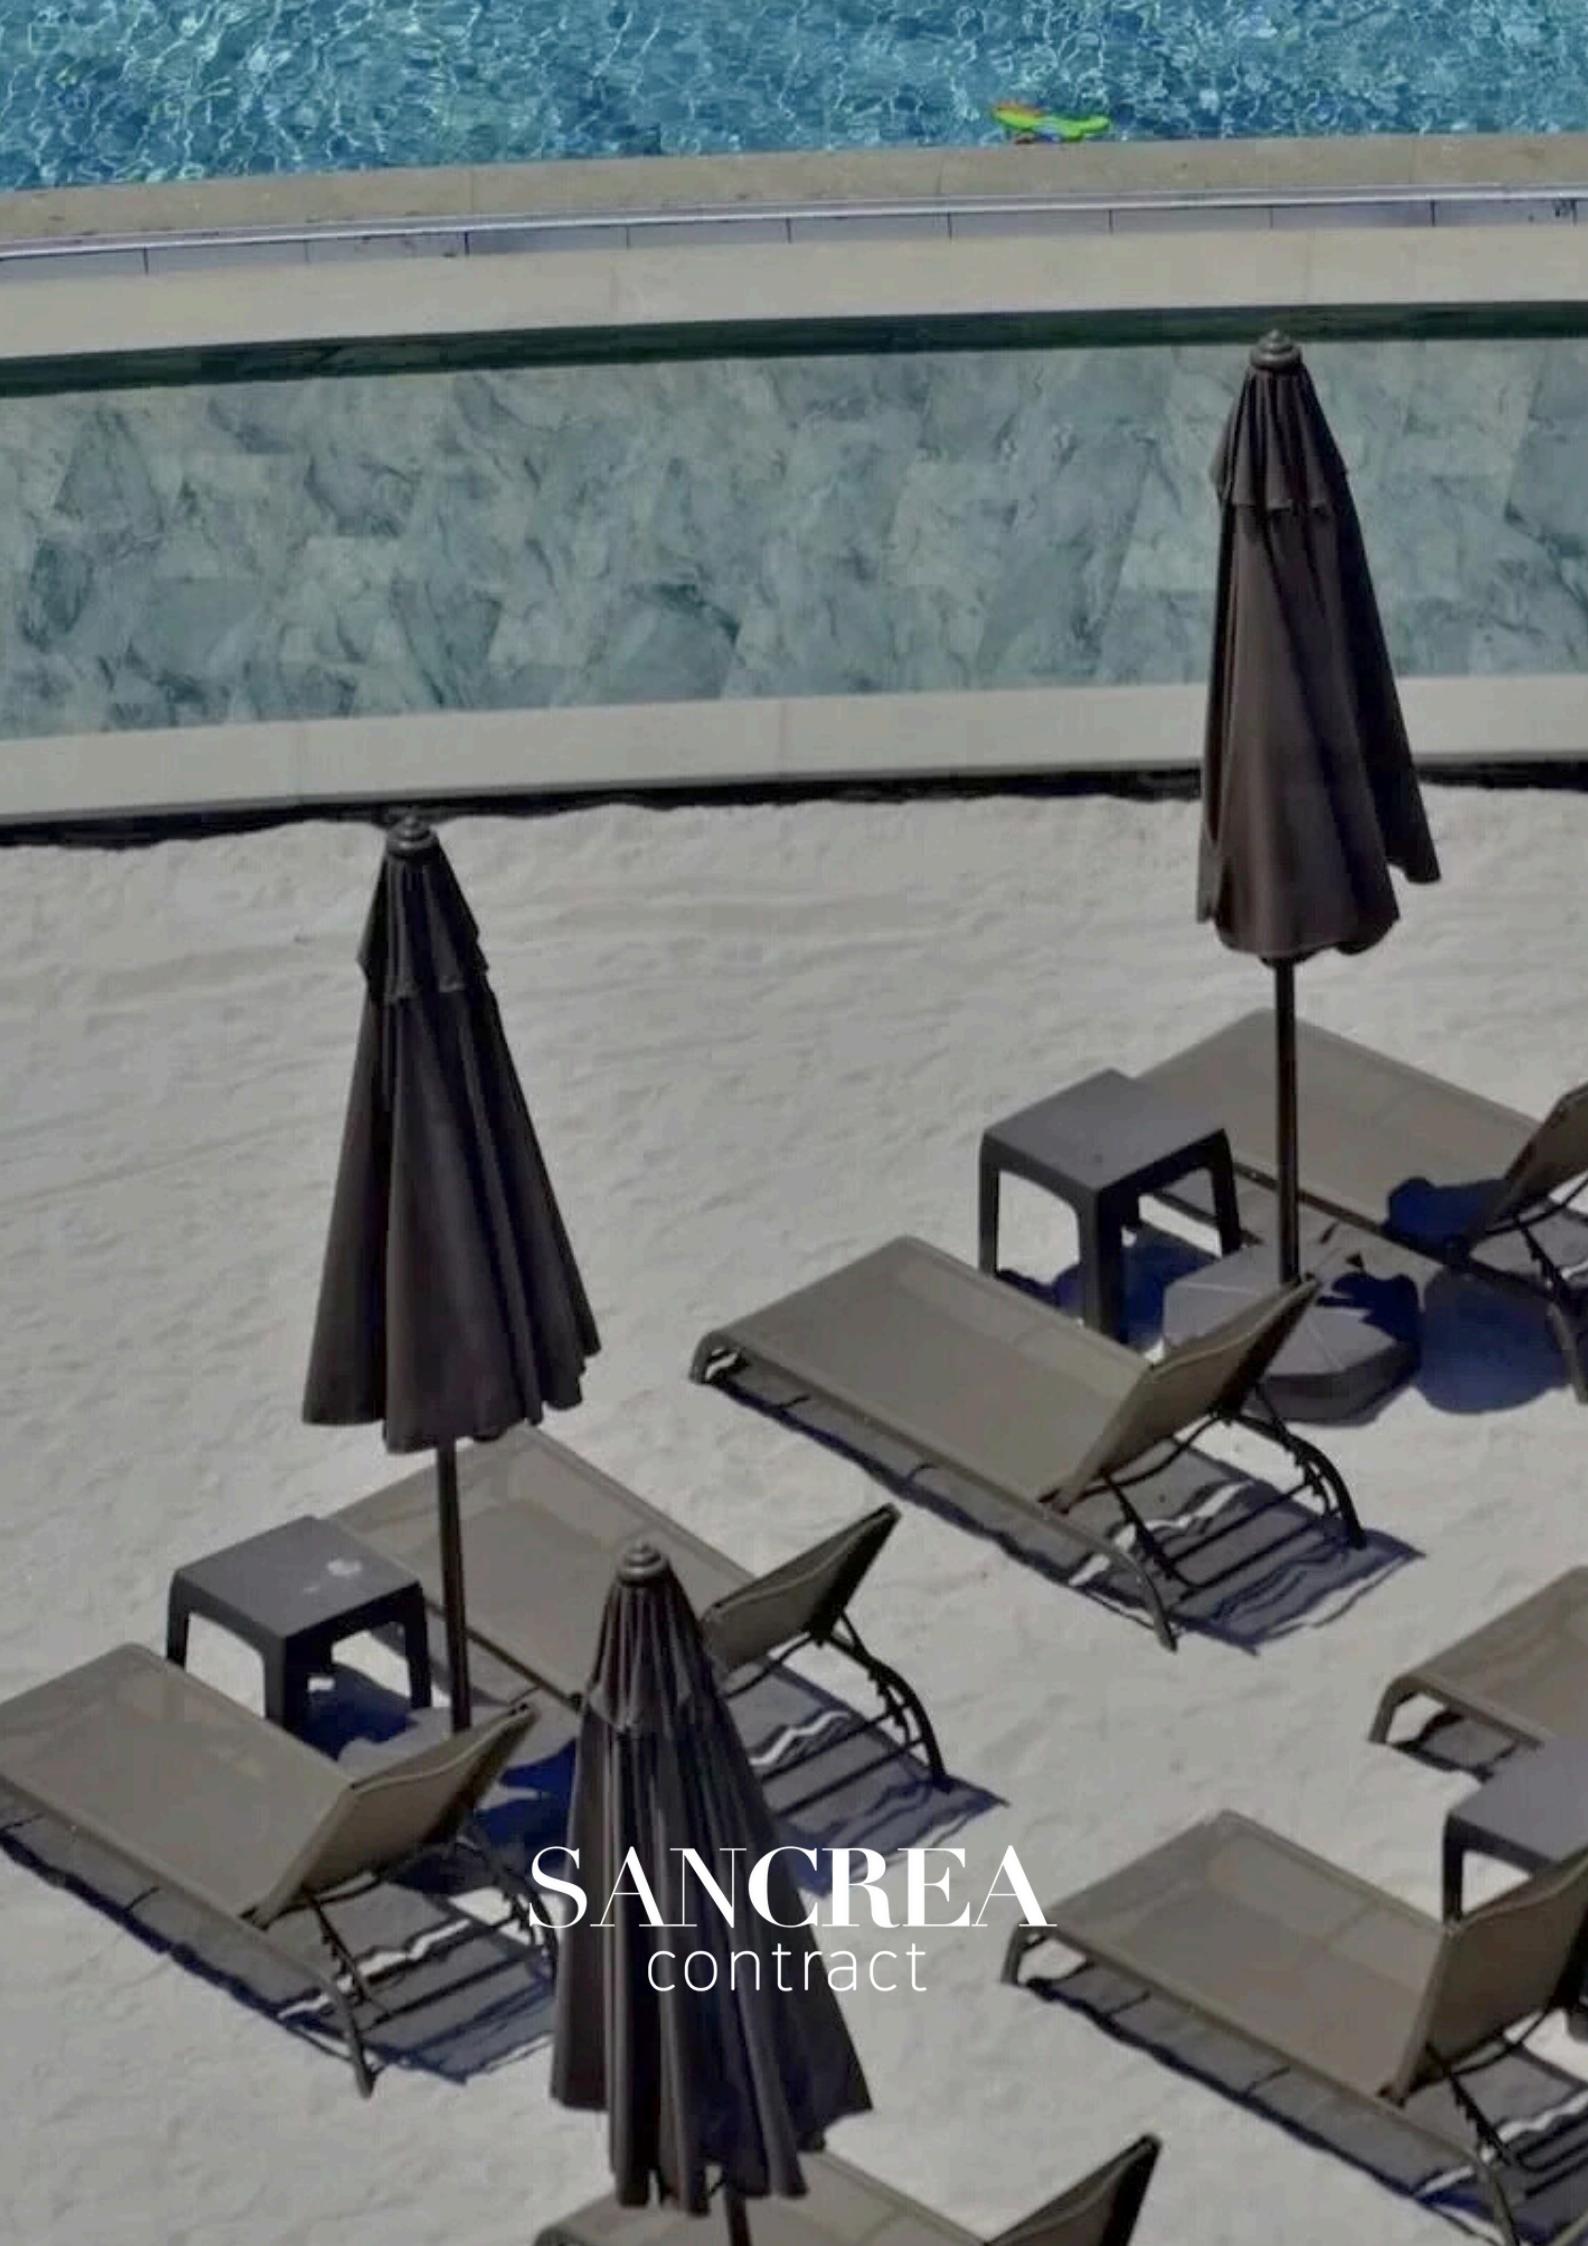

- **Sustainable** – Solar Panel integrated systems.
- **Heating Systems** – Extend comfort and usability during cooler months.
- **Integrated Lighting** – Create ambience and visibility through discreet LED systems.
- **Wind Breakers** – Add shelter and stability for exposed or coastal locations.
- **Awnings & Extensions** – Increase coverage and flexibility for larger layouts.
- **Custom Canopies** – Tailored fabrics, colours, and branding to match project requirements.
- **Marine-Grade Finishes** – All components can be specified for yacht and cruise applications, ensuring resistance to salt, humidity, and UV exposure. (IMO)

TRULY MAGICAL

A photograph of a swimming pool area. In the foreground, several lounge chairs with dark blue and white striped towels are arranged on a light-colored deck. Each chair is paired with a closed black patio umbrella on a black stand. The pool itself has a light blue, textured pattern on its bottom. The edge of the pool is made of light-colored tiles. A small yellow and green object is visible in the water near the top edge.
